

THE IMPEDIMENTS

LAFAYETTE'S FINEST

תהליך התהליך

From the suburban wasteland of Lafayette, Colorado come The Impediments, a band composed of four young men determined to rock. Playing music inspired by everything from The Beatles to Led Zeppelin to Rush to Thrice, The Impediments have developed a hybrid of Pop-Punk, Progressive Rock and Metal with subtle elements of Blues, Jazz, Latin and Funk thrown into the mix.

Conceived during the summer of 2001 when three high-school friends decided to get together and play, The Impediments' initial rehearsal was haphazard at best. Their first song was an awkward rendition of The Cars' "Just What I Needed."

After some serious rehearsal time and the addition of a new member, The Impediments began to refine their sound into its current form, and quickly progressed from playing classic Rock covers to writing and performing their own unique brand of music.

The rock quartet, comprised of Eric Pierce, Casey McCarthy, Bryan Graham and Alex Eherenman soon began gigging around the Lafayette area, playing coffee shops, parties, clubs, and even a few benefit shows at their former high school. With the experience of three years' worth of practice and public performance, The Impediments have a refined, powerful Rock sound that would fit perfectly into any club setting, party, outdoor festival or ritualistic celebration.

Please give our demo a listen and contact us.
We would love to play at your next show.
